Dear Sir,

The "History of the Sandwich Islands," to which you refer, is Mr. Dibble's, pp. 464, printed at the Sandwich Islands in 1843. I will lend you a copy of this history, if you desire it.

Mr. Warren's intercourse at the Missionary House was almost wholly with Mr. Greene, & saw him incidentally, for a few ~~times~~ minutes only. Mr. Greene is now absent in Vermont; and as I am entirely ignorant in respect to the other point in your letter, I cannot reply to it till his return. I think, however, that you must have misunderstood Mr. Warren, as I am confident that Mr. Greene would not have placed the correspondence of the Sandwich Islands mission at the disposal of any one not connected with the Executive of the Board, without my knowledge, that correspondence being in my especial charge. Having had the corresponding with the mission at the Sandwich Islands in his

hands two years previous to 1845, Mr. Greene would be able to impart much authentic information to Mr. Warren, and, if time permitted and he saw occasion for it, I doubt not he took great pleasure in so doing.

Truly yours,

Rufus Anderson,

Cor. Sec. A. B. C. F. M.
